DO NOT SHIP	DO NOT SHIP	SHIP

FedEx & UPS
Blackout

FedEx & UPS
CLOSED

PLEASE NOTE:

1. FedEx & UPS "Blackout" reflects "DO NOT SHIP" because samples shipped on these dates will be delayed and held in an uncontrolled environment beyond the standard 24 hours, since the next day is a holiday with no delivery. These proactive steps avoid the risk of an expired sample. Customer Service will contact you regarding any concerns that may arise with sample quality.
2. If you have a scheduled FedEx or UPS pickup on a "DO NOT SHIP" day, you are responsible to cancel the pickup.
3. If you collect samples on a "DO NOT SHIP" day, please refrigerate until the next allowed SHIP day. Please note that some tests might be past stability by the time they arrive at CHL.
4. Please allow for slight delays in turnaround time during the holidays due to the altered shipping schedule.
5. For additional questions, please contact customer support at **866.358.9828, option 1**.
